

TYRES CAR / 4X4

Passenger car tyres SPORTIVA

Sportiva is a tyre brand belonging to the Continental group.

Sportiva tyres always meet the criteria of stability, resistance, and reliability for all kinds of vehicles, be it a bus or a light truck.

Sportiva vouches for the outstanding cost effectiveness of its products, irrespectul of the weather conditions. Featuring high resistance to aquaplaning and first class quality, Sportiva tyres also come with stunning traction. Ideal for light trucks and mid-sized cars. Using cutting-technologies provides drivers with quiet driving and low rolling resistance.

Sportiva tyres are relatively new to the tyre market and have a strong reputation for safe and reliable tyres. They produce tyres for many sectors within the tyre market including; Car, Van, Truck, 4x4 and specialist winter tyres. If your looking for a lot of tyre for great value then Sportiva tyres may be the answer.

Sportiva are actually part of the Continental tyre family and we all know what that means! Excellent, cutting edge tyre technology. Sportiva offer the same but at a fraction of the price.

Sportiva Performance Sportiva Performance is a summer-season tyre, which is the perfect solution for those looking for a mix of performance, build-quality and good value for money. The tyre has an asymmetric tread pattern, which gives safe driving in various conditions. Great grip on the road gives one a feeling of safety, regardless of the prevailing road conditions.

The Sportiva Performance was intended to hold grip on dry and wet surfaces. With the Sportiva Performance, one is not astonished with a sudden downpour or high warmth (extreme street temperatures). One can keep control of one's vehicle, and every move is performed easily and rapidly. The braking force is likewise improved by the outline of this tyre. The furrows on the inward part of the unbalanced tread design effectively scatter water to provide a great level of protection against aquaplaning. Additionally, the external part gives dependability amid fast cornering.

The Sportiva Performance tyre works in a wide temperature range and it also has high resistance to wear. This refined model, which is defined by stress-free travel on an everyday basis. It is a feature-rich tyre for the budget-driven driver. The

Sportiva Performance is made by Sportiva, which is a white-label brand of the German organization Continental. This is a reaction by one of the biggest tyre manufacturers to appease budget-driven drivers. Products connected with

Continental are profoundly respected by their clients and specialists from the tyre industry.

NEW!

Perfect performance.
The new Sportiva Performance.

- Sporty, precise handling
- High mileage
- Reduced noise emissions

The new Sportiva Performance

By optimising the profile components, we improve handling, ride comfort and mileage.

Sporty, precise handling

The asymmetrical tread design with solid circumferential centre ribs result in a direct steering response, enabling sporty, highly precise handling.

High mileage

The macroblock design and the optimised connections between tread blocks reduce tread slippage as the tyre rolls. This increases mileage while ensuring even tread wear.

Reduced noise emissions

The noise-optimised arrangement of the tread elements and the closed outer shoulder reduce noise emissions. This ensures greater comfort to low noise within the vehicle and due to low external noise it is also environmentally friendly.
